## Economic Intelligence for Governments That Cannot Afford to Guess.

<b>18+</b> Years Experience	<b>20+</b> Peer-Reviewed Publications	<b>\$60M+</b> Programmes Advised	<b>12+</b> Theses Supervised
-----------------------------------	---	--	------------------------------------

## SERVICES & ENGAGEMENT TYPES

### Economic Feasibility & Pre-Investment Studies

Comprehensive economic analysis for industrial zones, SEZs, and large-scale infrastructure projects. Covers market sizing, investment climate, sector benchmarking, and viability assessment.

### Spatial & Regional Economic Diagnostics

GIS-based regional analysis, population modelling, location quotient studies, and spatial inequality assessments for governments and development agencies.

### Policy Strategy & White Paper Development

Research-backed strategy documents, policy briefs, and government white papers. Specialist in Vision 2030 alignment, CPEC corridor policy, and South Asia development frameworks.

### Programme Evaluation & M&E; Frameworks

Results-based monitoring systems, KPI design, social impact evaluation, and development programme review for multilateral and government clients.

### Applied Econometric Research

Peer-reviewed research collaboration, panel data modelling, structural break analysis, and quantitative advisory for academic institutions and think tanks.

### Advisory, Training & Speaking

Keynote addresses at policy forums, capacity-building workshops for government economists, postgraduate supervision, and expert commentary for media and institutions.
